This License is intended for participants in the Babylon ecosystem, such as finality providers, wallet integrators, and staking technology providers ("**Participants**").

Additional Use Grant: in addition to the uses permitted under the applicable Business Source License ("**BSL**") governing such GitHub repositories, we grant you a limited, non-exclusive, non-transferable, non-sublicensable, revocable license, limited as set forth below, to use any of the software included in the following repositories: <https://github.com/babylonlabs-io/finality-provider> ("**Software**") for production commercial uses built on or using and integrated with the Babylon Protocol, not including Competing Uses.

Any use beyond the scope of this license, including uses that are not built on or using and integrated with the Babylon Protocol, or are Competing Uses, will terminate this license to you, automatically and without notice.
